Introduction to Neural and Cognitive Modelling (CS9.427)

Homework
10 October, Monday

Abhinav S Menon (2020114001)

Points I Did Not Understand

The points I did not understand in the talk are:

- Connection between reward sensitivity & learning rate – there is no term related to ε in the equation

- The data related to psychotherapy sessions

Points I Liked

The points I liked about the talk are:

- Described clinical applications as separate from theory

- Clearly stated formalisms

- Provided big picture and motivation for study
